

# APRIL 2021

...THROUGH THE EYES OF  FEI

Serving you globally

A MONTH THAT WAS...

- ➔ *India and the United States have agreed to revamp their strategic energy partnership to focus on greater collaboration in cleaner energy sectors such as biofuels, and hydrogen production.*
- ➔ *The Indian army will be inducting women in its rank-and-file for the first time in the coming weeks.*
- ➔ *India's first Multi Modal Logistics Park is set to start at Jogighopa, Assam.*
- ➔ *IIT Delhi has developed a device which provides dengue results within an hour.*
- ➔ *The National Highways Authority of India (NHAI) is planning to award projects worth around Rs. 2.25 lakh crore in the current fiscal.*
- ➔ *India is set to produce 850 Million doses of the Sputnik V vaccine developed by Russia.*
- ➔ *Reserve Bank of India Governor has asked banks to take measures proactively to maintain business continuity and raise adequate capital for strengthening their balance sheets.*
- ➔ *The Indian Government has launched "DGFT Trade Facilitation App" for Providing instant access to information for the Exporters/Importers.*
- ➔ *DRDO has developed supplemental oxygen delivery system which can be used for Covid patients.*
- ➔ *Industry leaders have pitched for a universal list of essential services that should remain functional, in a suggestion to the finance minister.*

*Trust you have enjoyed reading this. Waiting to know your critical comments, if any.*

*Respectfully*

*Sheen Ajith Thomas,  
For FEI Family.*
