

Project FPS achieves another mile stone by being the Logistics Service Provider for the Asia Cup Cricket Tournament 2023.

Asia Cup is one of the most significant cricket tournaments within Asia, which was hosted by Pakistan and matches were played in Pakistan and Sri Lanka. The tournament was held from the 30th of August to the 17th of September 2023 and featured six teams divided into two groups of three.

Project FPS comprised the precise handling of logistics, specifically related to vehicle Importation. This involved navigating the complexities of the ATA carnet system, ensuring smooth clearance, reworking, lashing, and efficient transportation via car carriers to the tournament venues. Covering a distance of approximately 250 kilometres from Colombo to Pallakelle, suburb of the city of Kandy in Kandy District, Central Province, Sri Lanka.

During the tournament, two vehicles were prominently displayed at the Taj Hotel in Colombo, Sri Lanka enhancing the overall experience for attendees. When matches were held in Colombo, these vehicles were transported to the stadium for further display. Upon the conclusion of the matches, they were efficiently exported back using the ATA carnet system.

Our dedicated team worked thoroughly to adhere to a tight timeline, ensuring that we met our client's schedule with zero errors. The Asia Cup holds a distinguished place in the world of cricket, and we were honoured to play a vital role in its implementation. Project FPS took all necessary steps to ensure that our logistics services were of the highest standard for the 2023 Asia Cup.

We were dedicated to providing excellent services, and we are pleased to have been involved in this important sports event. As the tournament progressed, Project FPS delivered outstanding services, making sure it was a success.
